

Topic 1 - Navigation as Home Page / Launcher

Opt. 1 Navigation as Home Page / Launcher

Ford HMI agreed to Delete “navigation as homepage/launcher” because of feasibility issue.

Opt. 2 Navigation as one dashcard in launcher

Ford HMI agreed on this option

首页高配（默认页）——P档时显示账号信息、天气信息、安全守护与车辆模型

首页高配（默认页）——D/S档（行驶档）时，仅显示地图卡片

Need to have :

1. Click Vehicle to vehicle setting
2. Click map to navigation

简述：在 Launcher 页面大卡片区域增加 mini 地图功能，快捷的告诉用户当前车辆所处的位置

Welcome animation

Shift to D/S

Keep dashcard personalization

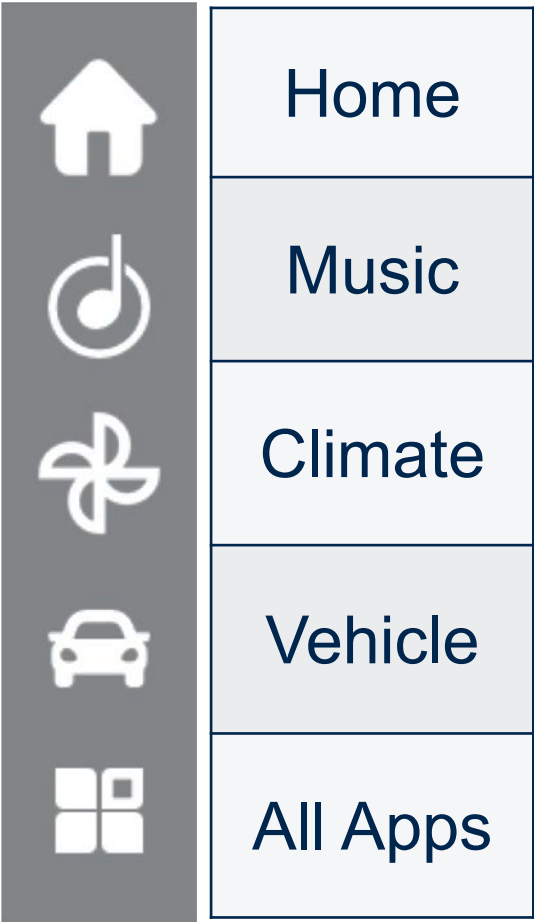

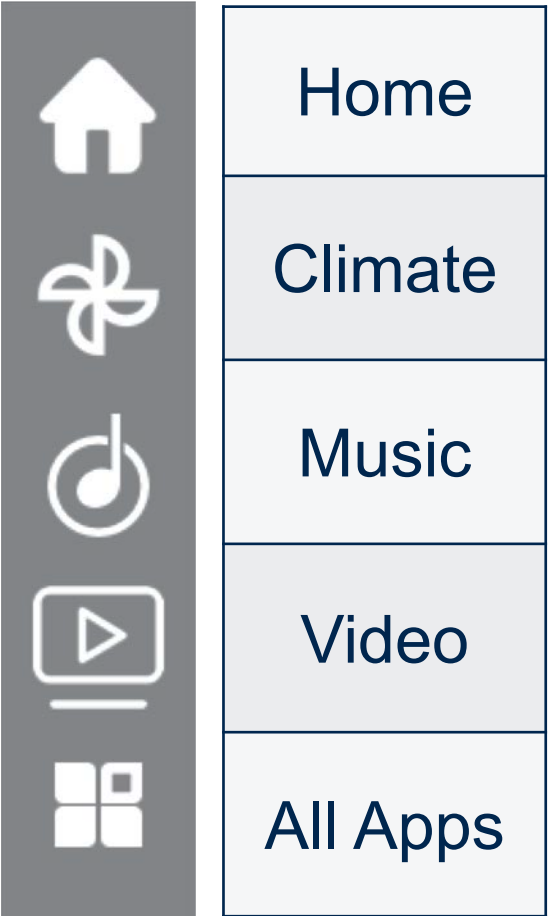

Topic 2 – Persistent bar

Persistent Bar

Persistent bar for solo mode and co-pilot mode

Passenger persistent bar in solo mode

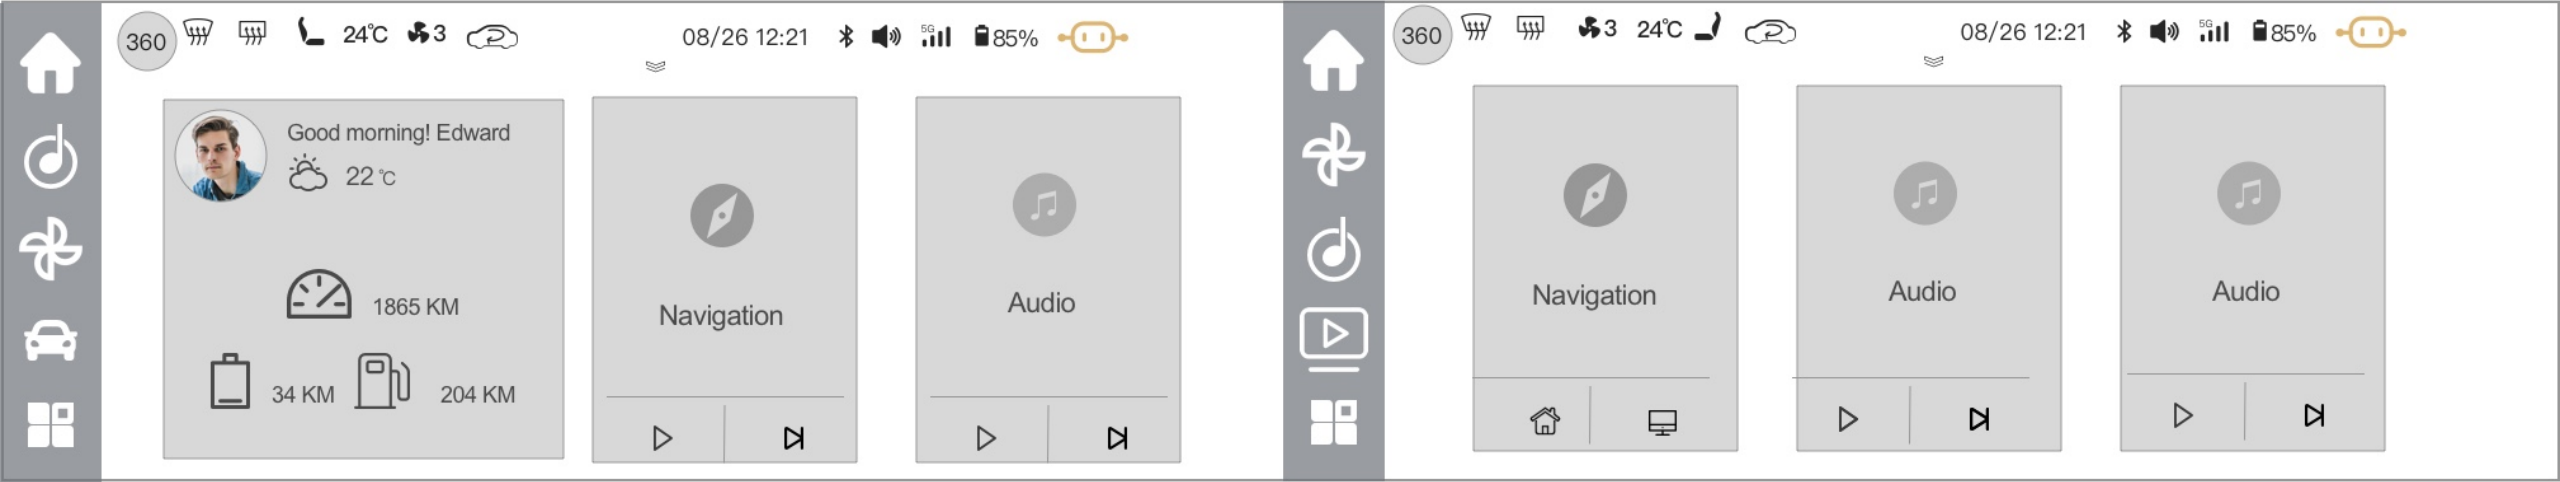

可以通过拖拽移动到常驻栏

Ford HMI agreed to Delete persistent bar buttons Personalization to reduce timing risk.

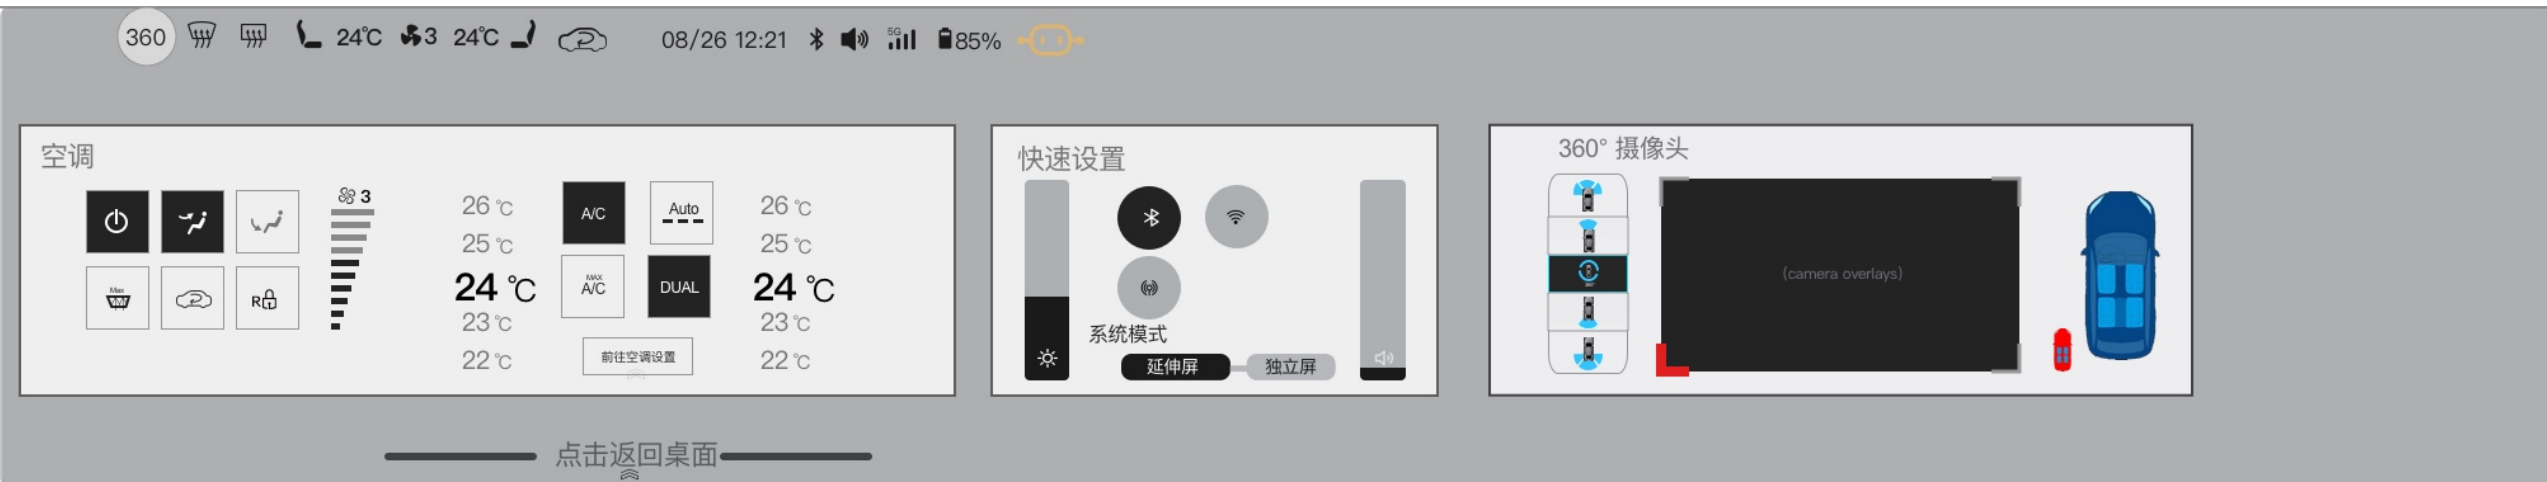

Persistent Bar

Topic 3 – Quick Panel

Each group can be deleted / added

Details to be written into each feature's MRD.

Phase 3 DuerOS Landscape Layout

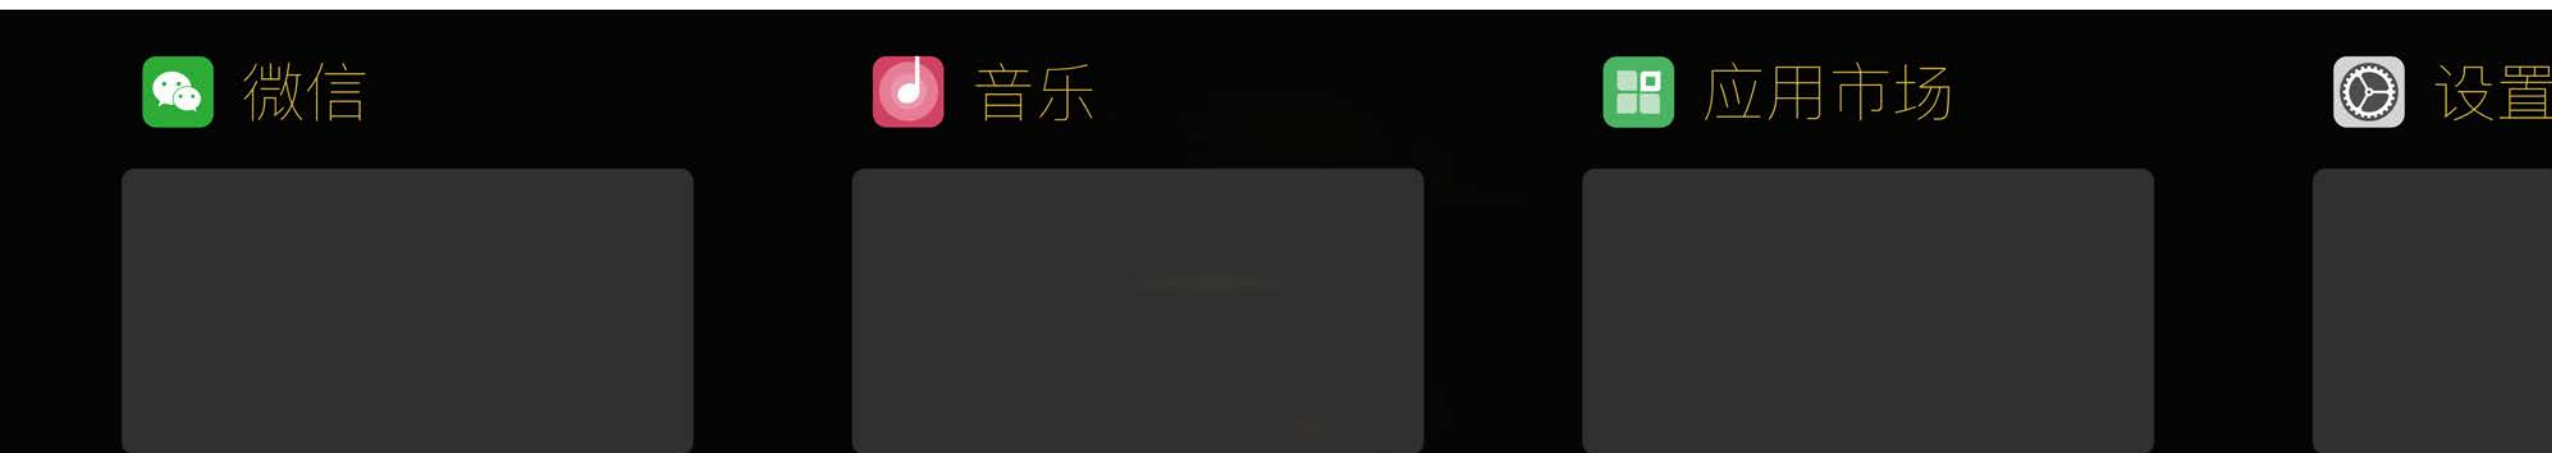

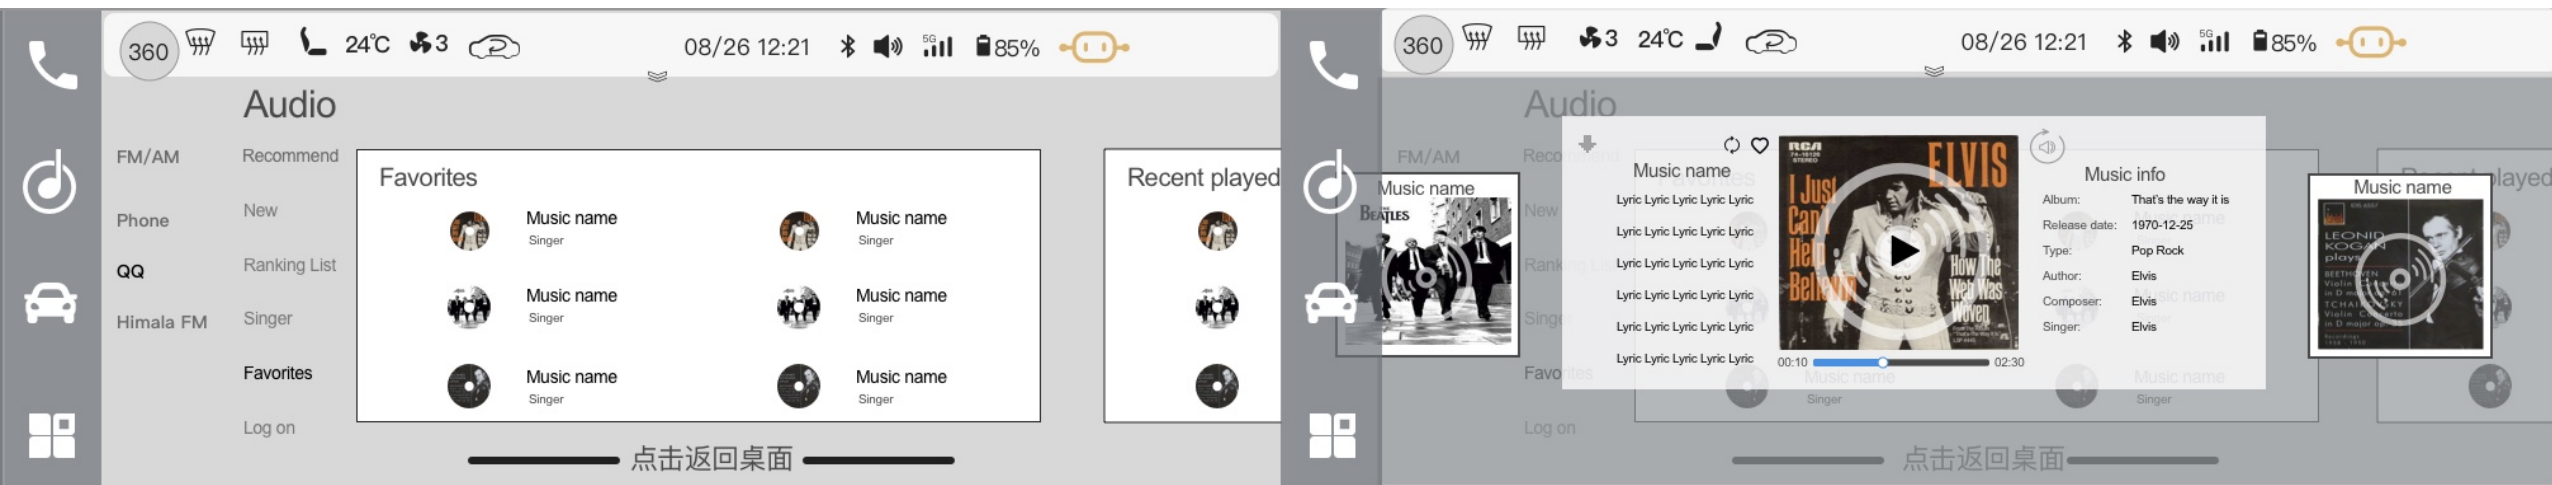

For CD539ICA, work in progress

Topic 4 – Home Indicator & Touch Gesture

Topic 5 – Launcher for individual modes

Need to have launcher for Driver side and passenger side in individual mode.
Note : launcher including Dashcards, Quick panel, All apps and Recent apps.

- Baidu and Desay confirmed this is feasible technically.
